## About the maps on [www.geo-ref.net](http://www.geo-ref.net)

Each map published on our web site is free to use without costs, meanwhile the same is not modified, especially concerning our own site logotype. This is valid for all published PNG and the PDF-files.

We have published on the country page usually the population density of the country, the mostly interesting thematic map. But the real power of our offer consists in the display of your own data, drawing so your own maps with your results or relevant data.

The so generated thematic maps you can order as illustrations for reports and publications, in huger format for maps – mostly till A0 format. Also for the inclusion in PowerPoint presentations we can offer the maps, as bitmap or in vector format

So it works:

Please visit the corresponding page for our detailed conditions of service and supply.

The price of a thematic map is visible on the corresponding country page.

Visit our page Services to find out about our additional services.
