

Administrative division Ivory Coast

Census 2021

The Ivory Coast is administratively divided into districts, which are then subdivided into departments. At the same time, though older, is the arrangement of departments into regions, which in turn are grouped into districts.

Division by Districts

Zanzan	CI-ZZ	Bondoukou	38.183	1.344.865	35,2
Total			322.571	29.389.152	91,1

There are minor discrepancies between the data of the departments belonging to the districts and the consolidated data of the districts, partly in the reported population figures (max. 2 persons), but also in the area data, which in the case of the Lagunes district amounts to about 4.5% and leads to a distortion of results in comparison. These inconsistencies are currently being clarified.

Division by Department

ISO 3166-2 does not yet exist for the departments. So a separate codification based on the ISO classification of the districts was temporarily introduced, which numbers the departments of the district in alphabetical order.
