FORMER PARISHS

..... Borders of the former parishes
 Destroyed and restricted settlements and cities

After the successive volcanic eruptions in the last decade of the 20th century, the Parish's Saint Anthony and Saint Georges were declared as restricted. Currently the population of Montserrat only lives in the Parish of Saint Peter.

Since the beginning of the volcanic eruptions in 1995 in the south of the island, the previous structure in Parishes was abolished, as they had to relocate the entire population from about 62% of the land area to the Parish of Saint Peter. The entire south del island state is now a restricted area – the Exclusion Zone.

For the 2018 Census, therefore, the Census regions shown in the previous table were formed and counted on the basis of the population of the communities.

The following table, on the next page, illustrate the results by community.

About the maps on www.geo-ref.net

Each map published on our web site is free to use without costs, meanwhile the same is not modified, especially concerning our own site logotype. This is valid for all published PNG and the PDF-files.

We have published on the country page usually the population density of the country, the mostly interesting thematic map. But the real power of our offer consists in the display of your own data, drawing so your own maps with your results or relevant data.

The so generated thematic maps you can order as illustrations for reports and publications, in huger format for maps – mostly till A0 format. Also for the inclusion in PowerPoint presentations we can offer the maps, as bitmap or in vector format

So it works:

Please visit the corresponding page for our detailed conditions of service and supply.

The price of a thematic map is visible on the corresponding country page.
